BakeIT Cloud™

BakeIT Cloud™ provides a single platform to manage, review and process bakery data of hundreds of locations with a smartphone or desktop. The BakeIT™ Service Network allows new levels of efficiencies, prevents unnecessary service calls and reduces managerial workloads. PreciBake® products can connect to the cloud via an existing internet connection, work offline and it is possible to download data to USB and upload to the BakeIT™ service indirectly via PC or smart devices. Get ready for industry 4.0 with our IoT solution.
